

# Virtual Sister

By becoming a Virtual Sister you will be part of a network of accomplished women who want to do something effective to support the daily lives of indigenous women and to open new possibilities for their future.

We are a not-for-profit organisation and quarterly financial reports will be assessible on-line.

As Virtual Sisters we will become a *resource bank* for Mudgin-Gal and can be as active as our time and energy permits.

## WEB DESIGN

This website was designed in collaboration with Alyx Guidi, a long term volunteer of the Redfern Computer Centre, a community based organisation where she has shared and gained many skills. The Centre was developed by the same group that created the Virtual Sisters of Mudgin-gal.
